PROJECTS

laxmopumps.com   WordPress

- Developed a comprehensive website for Laxmo Pumps, showcasing their product range. The project involved designing a user-friendly interface and integrating product details, company profile, and contact information using WordPress.

hariimpex.in   HTML, CSS, JavaScript, ReactJS, Redux, Firebase

- Developed an e-commerce site for Hari Impex, highlighting their manufacturing business. It includes sections for product catalog, company profile, inquiry forms to facilitate business communications, and a payment gateway.

earthwarrier.in   WordPress

- Created a blog website for Earth Warrior, an environmental NGO. The site features blogs about their initiatives, volunteer opportunities, and donation options, designed to engage and inform visitors about environmental conservation efforts.

mntn-ui.vercel.app   HTML, CSS

- A demo project showcasing UI/UX design skills using modern web technologies. The project demonstrates responsive design, interactive components, and a clean user interface.

EXPERIENCE

Product Designer   Aug 2019 - Jan 2022
TezTech (Sonani Electronics)

- Designed new products as per customer requirements and ensured timely manufacturing.

Production Manager   Jan 2022 - Apr 2024
TezTech (Sonani Electronics)

- Designed and planned the manufacturing and assembly processes for products on the production line, ensuring the right quantity of components/products were delivered to support production line speed.
